Fco. Montejano Palacios No. 2 5 La Venta
del Astillero, Zapopan, Jalisco. C.P. 45221

Over 40 years developing high-performance
ingredients for demanding industrial processes.

We are a proudly Mexican company with over 40 years of experience in the production of oils, vegetable fats, and derivatives for the food, chemical, and personal care industries.

We operate certified facilities, specialized laboratories, and a strong Research & Development team, delivering customized, consistent solutions aligned with the highest industry standards.

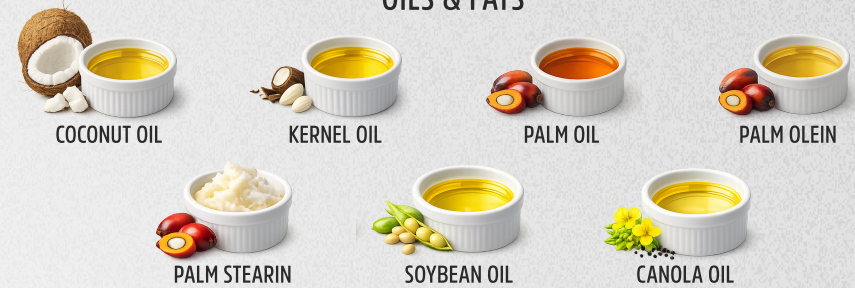

We develop and supply functional raw materials that deliver stability, operational efficiency, and reliability in every batch. We work closely with our clients to optimize formulations, production processes, and final results.
